The inspiration of designer and artist Giuseppe Lorenzi has given us Masterpieces.

He has taken his passion for RAKU, an ancient 17th century technique from Japan, and uses it to express his unique sensitivity for human emotions. The RAKU tradition was born when a tea master recognized the beauty of unique effects created in the firing of tiles by a craftsman. Each piece is handmade and reflects the human spirit through natural elements.

These luxurious pulls and knobs are handmade and mounted with:

- Amber:** Is a fossilized tree resin that greatly varies in color and translucence, depending on its age and geographical origins.
- Mother of Pearl:** This pearly, iridescent material is a natural organic-inorganic composite found on the inner shell of certain mollusks.
- Onyx:** The natural qualities of this stone create special nuances in each unique piece.
